BASIC-ABSTRACT:

NOVELTY - A USB cable divergently connected with a PS2 connector is provided to remove the shortage of power by transmitting output power of a USB port and a PS2 port of a computer main body to an outer device.

DETAILED DESCRIPTION - A USB cable divergently connected with a PS2 connector includes a USB connecting terminal(10) connected to a USB of a computer main body, an outer device connecting terminal(12) connected to an outer device, a first cable(13) connecting the USB connecting terminal with the outer device connecting terminal, and a second cable(15) having one end divergently connected to the first cable and the other end connecting to a PS2 connecting terminal(11) connected to a PS2 port of the computer main body.
